

BBO progress report April –June 2021

This report has been produced by participants of the BBO project

To support ongoing work experience training, we have supported participants in helping to tidy rooms within the building which are not in use, helping out in the horticulture department, keeping the outside of reception tidy and upkeeping of the planters.

We have continued to build on practical woodwork skills to use recycled wood to make Bee boxes, phone holders, plant pot holders etc. We also continue to recycle older wildlife habitats and birdboxes to make them saleable.

We are continuing to offer remote support to the few who are struggling with anxieties around being out in the community. This support includes baking, art and design, Gateway qualification and literacy and numeracy.

We have bought a strimmer so participants can take ownership of trimming the grass outside reception and sensory garden.

Chris left the project and will continue attending FACET and gaining work experience at Hot Pots café and working with his dad.

Chris has worked on lots of enterprise projects, completed his Entry level 2 qualification in Enterprise and built on his work and independent skills.

Andrew and Kobe moved our wild life products to horticulture and set up a display and sales area so the public can buy products.

Rachel has left the project as she completed her goals. Rachel has learnt about using money, planning enterprise projects, increased her confidence in her literacy, IT and making decision for herself.

Rachel is looking to volunteer and have a taster day within FACET.

We are continuing to build participants confidence around job search skills which include completing a CV and vocational profile, learning how to use job site searches and if requested apply for a job.

Colin has now joined the project and is looking to practice work related skills.

Kobe and Adam have applied for voluntary and paid work as part of their job search activities. Adam was invited to attend an interview as a care worker but was unfortunately unsuccessful.

Dear Sir/Madam,

I am applying for the customer assistant role at Lidl as I have seen advertised on Indeed.com.

As you can see from the CV I have attached, I have experience working in a fast paced environment and the skills to work with and listen to service users and support their needs. I believe these abilities that I have cultivated make me the perfect candidate for the advertised role.

I will always work my hardest to provide the best service I possibly can. I am a reliable and flexible worker, maintaining a 100% attendance record during my time in college. I have absolute certainty that I will easily integrate and be a great asset to your team – always working hard, being on time and being of service to the customer.

Thank you for your time, I look forward to meeting in person so we can discuss how I can best be of service to you and your business.
